Scott McCloud : Understanding Comics: The Invisible Art before purchasing it in order to gauge whether or not it would be worth my time, and all praised Understanding Comics: The Invisible Art:

0 of 0 people found the following review helpful. Easy read. Excellent condition By Uliia Not a big comic book fan. Explains how comics work. Needed it for a class. Easy read. Excellent condition. 0 of 0 people found the following review helpful. should have bought this sooner By K. Toya lot to dig through. going over it several times. am sure I'll find new things every time 0 of 0 people found the following review helpful. Funny, informative and an exploration of

the medium By PK This book is a comedic comic about comics. Wrap your head around that one. This is a great book for anyone who is even remotely interested in comics. It is more than a how-to guide, and in fact has very little in terms of actual instruction. Rather, this is a thorough deconstruction of how comics as a medium work. And, presented in the very medium it is addressing, which is both a novel idea, and serves to show the author's grasp of the subject matter. Entertaining and informative, this is a must read for any budding cartoonist or visual storyteller.

The bestselling international classic on storytelling and visual communication "You must read this book." — Neil Gaiman Praised throughout the cartoon industry by such luminaries as Art Spiegelman, Matt Groening, and Will Eisner, Scott McCloud's *Understanding Comics* is a seminal examination of comics art: its rich history, surprising technical components, and major cultural significance. Explore the secret world between the panels, through the lines, and within the hidden symbols of a powerful but misunderstood art form.

.com A comic book about comic books. McCloud, in an incredibly accessible style, explains the details of how comics work: how they're composed, read and understood. More than just a book about comics, this gets to the heart of how we deal with visual languages in general. "The potential of comics is limitless and exciting!" writes McCloud. This should be required reading for every school teacher. Pulitzer Prize-winner Art Spiegelman says, "The most intelligent comics I've seen in a long time." "If you read, write, teach or draw comics; if you want to; or if you simply want to watch a master explainer at work, you must read this book." (Neil Gaiman) "McCloud's masterwork is not just an indispensable treatise on comics, it's also the best primer around on visual literacy and the mechanics of storytelling. A must-read for anyone interested in narrative of any kind." (Alison Bechdel) "Cleverly disguised as an easy-to-read comic book, Scott McCloud's simple-looking tome deconstructs the secret language of comics while casually revealing secrets of time, space, art and the cosmos! The most intelligent comics I've seen in a long time. Bravo." (Art Spiegelman) "Reading *Understanding Comics* blew my teenage mind, and gave me a toolbox full of ideas that I still use today." (Raina Telgemeier) "The best analysis of the medium that I have ever encountered." (Alan Moore) "BRAVO!! ... A landmark dissection and intellectual consideration of comics as a valid medium. ... Anyone interested in this literary form must read it." (Will Eisner) From the Back Cover Praised throughout the cartoon industry by such luminaries as Art Spiegelman, Matt Groening, and Will Eisner, this innovative comic book provides a detailed look at the history, meaning, and art of comics and cartooning.
