I purchased Unicorn Executions and Other Crazy Stuff My Kids Asked Me to Draw by Steve Breen after seeing it in a book store. This is such a great book, the illustrations are just great. The color and depth of these illustrations are very entertaining. This is not your typical picture book. The pictures in this book are very dark, and kind of violent, but they are very entertaining. If you have a dark sense of humor and enjoy silly illustrations, this is a good book for you. I would strongly recommend this book and will be buying it for my brother as a gift. Very entertaining though. I liked it. 1 of 1 people found the following review helpful. Funny, intelligent humor for adults By Mindphreak Highly entertaining! This is my kind of humor. Steve Breen really is an acclaimed children's book author. I didn't realize that wasn't a joke until my wife showed me his other books on my kid's bookshelf. Some classic drawings worthy of passing around the office. Intelligent humor.

In this quirky collection of drawings, Steve Breen explores the random (and sometimes horrifying) pleas of his children to draw everything from Jedi-corns to mutant presidents. Featuring one hundred original color and black-and-white illustrations by the Pulitzer Prize-winning illustrator, Unicorn Executions and Other Crap My Kids Make Me Draw will have kids and parents laughing at the silly and bizarre illustrations Breen's kids asked him to draw, like:•

Betty White punching out a silverback gorilla• Ninjapus• Disney princesses in forty years• If humans had T-Rex proportions• Vikings riding gorillas while blasting Metallica• Secret mutant powers of US presidents• And many more unusual requests Unicorn Executions and Other Crap My Kids Make Me Draw is humorous, fun, witty, and a great gift for anyone looking for a laugh.
