James B. Kobak : Up Front From Behind before purchasing it in order to gage whether or not it would be worth my time, and all praised Up Front From Behind:

0 of 0 people found the following review helpful. Hilarious Portray of Law Firm LifeBy An AttorneyUp Front From Behind is a riveting and hilarious satire of life at a large law firm. The narrative is well paced, the writing is crisp, and the book is chock full of character types readers will recognize in any large organization. Should be of interest to the general reader, but especially all attorneys and their spouses and children, as well as anyone even vaguely thinking of going to law school.

James Kobak has been in the money business for years, prowling the back alleys of the financial district of Manhattan in search of the almighty dollar, and now he's written a novel that shatters every illusion you may have had about the men who call themselves "masters of the universe". No, it's not a "tell-all" story. It's a humorous take on the vagaries of life in the financial fast lane by someone who knows what he's writing about. It may scare you a little if you have money invested in the schemes that rule our economy but it will mainly amuse you with its insightful glimpse of how Wall Street really works. Ramble House is proud to make this book available to people outside the skyscraping world of Gordon Gecko.

About the Author James B. Kobak, Jr. is also the author of *The Wimp's Guide to Cross-Country Skiing*. His articles and essays have appeared in many publications. Mr. Kobak is a magna cum laude graduate of Harvard College and a former law review nerd at the University of Virginia Law School.
