**Matt Whyman : Walking with Sausage Dogs** before purchasing it in order to gage whether or not it would be worth my time, and all praised Walking with Sausage Dogs:

I have a mini sausage dog with short hair and he seems the opposite of the dog in the book. Henry gets cold very easily, hates going outside when it's cold, and barks louder at any noise he hears - or at nothing at all. I'm just glad I don't have any mini pigs!1 of 1 people found the following review helpful. A pleasant readBy anna krugerI found this

book enjoyable and an easy light hearted book to read. I could identify well with the characters as I was at the time of reading incapacitated with a broken foot due to sidestepping my own sausage dog! The author managed to share his own feelings with a natural unaffected sense of humour. A recommended read! 0 of 0 people found the following review helpful. Great fun read! By Barbara Briegel First of all I loved the book jacket, and secondly, because of having lived with and loved three different dachshunds (a 16 month old currently ruling our household!) I was drawn to read the book. Anyone who has lived with a dachshund would enjoy this book. The author's accounting of the household's everyday antics kept me laughing! Great book!

Keeping pets is a lovely idea. When building a family, they complement the kids. But what happens when things get out of hand? For writer and house husband, Matt Whyman, it's a case of catastrophe management in coping with four children and all the ill-advised animals amassed by his career wife, Emma.
