Some really good recipes and even more fun to look at the pics.1 of 1 people found the following review helpful. Good Eats ... And Then SomeBy CustomerYou will enjoy this cookbook. The pictures are, of course, just as scrumptious as the recipes. And, the recipes are easy to follow. But, this is also entertainingly well-written. Wes has done a masterful job of balancing the pictures with some fun descriptions before engaging the reader with the actual recipe. I think this adds so much. I also believe the front cover mirroring the back cover is clever. Five stars ... and more!0 of 0 people found the following review helpful. but Wes Smoot did an amazing job at not just photographing

beautiful menBy PhillipAfter buying an Erotic Cookbook, one would not expect the recipes to be stellar, but Wes Smoot did an amazing job at not just photographing beautiful men, but he also took great consideration in excellent recipes and craftsmanship of these recipes. This is, not only recommended for those of you looking for an esthetically appealing book, but for those who actually enjoy astounding food and cultivating culture. I'm eagerly anticipating the next cookbook by Wes Smoot and look forward to adding it to my collection as well.
