Stress reliever By Customer This has become my go to book when I am feeling stressed out. I don't have to think about what I am going to color because this book has a lot of different themes. It fits nicely in my bag for long work trips and it's not mind boggling difficult. I'm looking forward to trying out the other books you have once I'm done with this one. 0 of 0 people found the following review helpful. Awesome book thank you!! By Customer This color book is awesome! Can't wait to get started on it! I love all the different drawings it's excellent a must buy!!! Love it!!

What-ever's Clever was created for the person who wants a coloring book with multiple themes. Also the person who

wants a book that doesn't stress them out with so much small detail. I believe in stress free coloring. The book has 28 fun pages. I designed each with a blank back side. All mediums will work however, I created the book with markers, pencils, and pens in mind. The themes in this book vary from whimsical to safari to under the sea. I believe this is a book a person can actually finish. So many coloring books out there are just to darn complicated. This is my second book. My first book "What-so-ever" can also be found on Amazon.com. Please visit my Facebook page "Coloring books by Michelle Kahler." Happy Coloring!
