Anyone who has ever loved their pet will appreciate its cuteness and humor. The pictures are so well photographed and staged that it is amazing! I am giving three copies of the book to people as presents this December for the holiday, because I know they will laugh as they read them!0 of 0 people found the following review helpful. Cats, dogs, and othersBy ChrijeffSome of these full-color photographs are

obviously candid (French bulldog Rad essaying a go on a skateboard, two lop-eared rabbits feasting on what appears to be green marijuana, Annabelle the cat embracing a plastic Jesus, kitten Tommy sprawl in his dish of kibble, Roz the Siamese attentively watching a screen of computer solitaire), others photo-shopped (Peyton the mouse (in miniature football helmet) preparing to extract cheese from a trap, Poison the blue chameleon riding a motorcycle, Trigger the kitten aiming a miniature assault rifle out the window, Sylvester the cat overcoming a dog with his "flying tiger kick"), and still others probably posed (Minou the cat paging through her mistress's copy of Joy of Cooking: 75th Anniversary Edition - 2006, Doobie the young malamute crammed onto a shelf in the fridge). Pets of every type, including birds, guinea pigs, a goldfish, a hedgehog, and a tame skunk, are seen in a wide variety of situations, some sweet, some silly. Animal lovers will find this collection irresistible. 1 of 1 people found the following review helpful. Not funny. By Joanna Rodriguez For anyone who loves cute and funny animal pictures and has internet access, this book is NOT for you. About 90% of the pictures in this book are available online in many, many, many funny picture sites. Honestly, that would have been fine, if the captions had been truly funny enough to make up for it. But they aren't. And the worst part of all is the horrible picture quality. Most all pictures are pixelated and blurry, obviously taken from online sources, some even photoshopped, which take away from the theme of the book. There are a couple of pictures that make it less than family friendly, including dogs with cigarrates, alcohol, bunnies eating marijuana leaves, and a certain adult toy... Not worth your money. I'm just glad I borrowed this, and didn't buy it.

The Unauthorized Album of caught-in-the-act photos your beloved furry ones never meant for you to see, What Pets Do While You're at Work reveals for the first time what your pets are really up to while you're away. And it's not all good clean fun! From an unsupervised canine "Come Pee in My Pool" party to channel-surfing fat cats, eloping bulldogs, shopaholic iguanas, and potbelly pigs that slurp their lunch on the rocks, the pets in these pages really don't seem to be missing you much at all. So, in the morning as you head off to work, you'll feel a little less guilty because your pets are not napping or staring, bored, out the window, waiting for you to come home. They are living each moment to the fullest, especially when you're not around!
