If you ever wondered why is your "product in the ...By ToddIf you ever wondered why is your "product in the bowl" the way it is, you will find the answers right here. Describing every type of "poop", you will learn and laugh along. It is written eloquently, with a sophisticated smoothness which (minding the book's focus of content) creates a humorous outcome. This book doesn't consists of inappropriate vocabulary, its aim is to inform and entertain at the same time. You will learn. You will laugh.Some of the chapters are: " Monster Poo, Pebble Poo, Camouflage Poo, Hanging Chad, Number Three, Ring of Fire..."There are people who would not want to read about this subject. They will never have the understanding then. If you have a curious mind and a decent amount of sense of humor, you will appreciate this book.6 of 6 people found the following review

Leave this little gem next to your guest room commode - a fun read!By Terry MI read this little book in one sitting - but not on the loo, even though my husband did set it beside the commode! It's a very informative read and you will learn the good, the bad and the downright ugly about your 'business'? It's a lighthearted read, but does give you some advice on what might be something you need to ask your doctor about. For instance if you see blood in the commode - it may just be the fact you had a feed of Beets or if not to seek medical advice. Full of little anecdotes with some fun illustrations. You will learn some useful tips - like not to leave your toothbrush near your commode - read the book and it will explain why!5 of 5 people found the following review helpful. Best bathroom book EVER!By Jessica and John LeverettThis book is THE BEST! I bought it as a Christmas gift for a friend and liked it SO much, I bought another for our guest bathroom! We have a small basket of books on top of the guest toilet and this is BY FAR everyones favorite book to look at while siting in the loo! It tells you everything you want to know about what your poo is telling you! What color/texture/ and smell are telling you about what you ate, what you did, and what your body needs :) Seriously great buy!

With universal appeal (everyone poops, after all), this witty, illustrated description of over two dozen dookies (each with a medical explanation written by a doctor) details what one can learn about health and well-being by studying what's in the bowl. A floater? It's probably due to a buildup of gas. Now think back on last night's dinner, a burrito perhaps? . . .All the greatest hits are here: The Log Jam, The Glass Shard, The Deja Poo, The Hanging Chad . . . the list goes on. Sidebars, trivia, over 60 euphemisms for number 2, and unusual case histories all make this the ultimate bathroom reader. Who knew you could learn so much from your poo?
