Mary Ellen Pourchot : When the Land Calls: A Celebration of Country Living before purchasing it in order to gage whether or not it would be worth my time, and all praised When the Land Calls: A Celebration of Country Living:

0 of 0 people found the following review helpful. Little more than newspaper clippingsBy A CustomerReading this book is akin to reading the "rural happenings" column in every city's local paper. If you go in knowing this and want little more than a local "bite" with breakfast each morning - fine - this is the book for you. But don't expect to snuggle down in front of the fire with a gripping read, because that it ain't. Curiously the photographs (local folks, local

produce, local folks holding local produce - you get the picture) seem oddly out of place in this book format. This is a quait compilation of clippings, no more - no less.0 of 0 people found the following review helpful. A rural way of lifeBy MarianneI was very pleasantly surprised by this book. It was easy for me to enjoy it though because Mary Ellen Pourchat talks about people that live right in my area. She really captured the essence of day to day living in rural communities. For anyone that enjoys a quieter way of life, enjoys family and community and enjoys nature you will find this book very easy to read and relate to.
