Appreciated by anyone who has run these riversBy RavencattI own a copy and have loved it ever since I picked it up. I bought this copy as a gift for a friend and co-worker. The maps are useful and the writing is great. I've run many of these rivers, and reading through the pages brings back memories of the great times.

For years William Nealy has been delighting whitewater paddlers with his informative and hilarious cartoon maps of popular canoeing and kayaking streams. Practically collectors' items, these maps are sought by paddlers all over the United States for their accuracy, relevance, and wild insider's perspective on those strange creatures who inhabit the exotic sport of whitewater paddling. Now, for the first time, Nealy has coupled his most celebrated Southeastern U.S. river maps with an anthology of cartoons, paddling homilies, and unsolicited advice. The result is a crazed but incredible book titled *Whitewater Home Companion, Southeastern Rivers, Volume I*. Through his distinctive drawing and wholly peculiar river-submarine terminology, Nealy successfully reveals rivers and boaters alike as never before. Contained within the covers of this book is a wealth of information and humor good for many hours of pleasure both on and off the river.
