Molly Ivins : Who Let the Dogs In?: A Personal History of America's Most Incredible Political Animals before purchasing it in order to gage whether or not it would be worth my time, and all praised Who Let the Dogs In?: A Personal History of America's Most Incredible Political Animals:

0 of 0 people found the following review helpful. Political insight and chucklesBy Nancy C. CopelandFantastic! Molly

sets the stage for our current befuddled political world through her short vignettes of the past presidential terms (Reagan through Bush the second) from her liberal progressive view with special note of the Texas legislature. We miss her pithy comments. I wish I had known about her earlier and I suggest you read her other books for chuckles and insight.

Molly Ivins one of the wittiest columnists in America, takes us on a wild ride through two decades of political life, from Ronald Regan, through Big George and Bill Clinton to current top dog, known as Dubya.

Praise for Bushwhacked "Dubose and the razor-tongued Ivins have done their homework, offering a well-researched, comprehensive examination of the dark side of the Bush administration's agenda, served up with enough saucy language and humor to make it an entertaining read."-"Rocky Mountain News" "Bushwhacked is primarily an indictment of a radical Republican regime. But it is also a celebration of average citizens and 'nameless, shirt-sleeve, not-very-well-paid functionaries' who have taken it upon themselves to blow whistles . . ., file lawsuits . . ., and otherwise fight back."-"Mother Jones" "Striking . . . Just as the Gilded Age brought forth a golden age of muckraking, our modern descent into money politics has brought forth a new wave of outraged reporters. Ivins and Dubose are worthy heirs of an honorable tradition."-"The New York of Books" "From the Hardcover edition."
