The author lets people learn that all cats are not the same and each one is special. I have many good memories about each of my cats and how they each had a different way of interacting with people. You just have to pay attention and they will show you the way.1 of 1 people found the following review helpful. A really

enjoyable read. By Kathy Govreau I enjoyed reading about all the cats they have and have had. I also have been "owned" by many cats. I have six at this time and two of them are ferals that live in my den and "use" my computer. 5 of 5 people found the following review helpful. Loved it! By kattwmn I could have written this!! I've actually thought about writing something like this, so it was really enjoyable to come across this and have it resonate so deeply. Very well done for any cat lover. If you're not a true cat lover who just loves to read about individual cats, you should probably skip it.

If you're a cat lover, if you've ever brought home a stray or opened your door to a wee ball of fur on a cold winter's day, or if you just like a good belly laugh – then this book is for you! In these 22 short stories, you'll meet the complete cornucopia of crazy cats who have adopted us and made the "Hicks Cat Ranch" their home over the past 20 years. Get to know Mrs. Hall (the music critic), Karl the Joker (he loves to scare Chihuahuas), Boris the Gladiator (try getting HIM to the vet!), Miss Winifred Harbottle (a dainty little thing – but oh, you do NOT want to meet her outdoors!), and Buddy the Little Whittler (ya – we used to have nice furniture...) and all the rest of our furry feline friends. There are flying cats, jumping cats, bouncy cats, balls of cats, scaredy-cats, and scary cats... when you've lived with this many cats – you've pretty much seen it all! Laugh along with us as you read about their antics on the "Hicks Cat Ranch". (Includes more than 70 candid, cute, color cat photos!)
