Chris Sheerin : Whore's Sense: A Hoetry Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Whore's Sense: A Hoetry Book:

Whore's Sense is a compilation of humorous love/hate poems by the author which are in no way meant to offend anyone, much. The poems have been not-so-carefully selected from two other books in the series: Whore Moans and

Whore Nets. The poetry within has been arranged into four categories: Not So Blue, Pale Blue, Pure Blue and Deep Blue, which obviously means that the poems become more honest as the book progresses. If you are in any way easily offended by refreshing honesty, buy the book anyhow and give it to someone who isn't. Other books in the Hoetry series include: Whore Moans, Whore Nets, Whore's Play, Whore's Trading, Whore's Power, and Whore's Flesh.
