lover and dog rescuer I can very much relate to this story. Every dog has a unique personality, history and sadly some kind of trauma that can present challenges to new owners, despite their best intentions. This book will make you laugh, think, and warm your heart. I hope to read more from this author. 2 of 2 people found the following review helpful.

Why 're you put together all wrong. By shan Just loved this. A short, well written story from a dog's point of view. A married couple in their later years bring home a 'unlovable, unwanted' young dog from the animal shelter to give him a chance at life, and their oblivious older dog a companion wonderful different perspectives from the humans, the resident older dog and the new arrival. Ending was sensitively handled and makes the book worthwhile. I am intending to read this to my grandchildren. 2 of 2 people found the following review helpful. Knows Dogs By Kelly Camille A stray who has never lived inside is adopted by an affluent, well-intentioned family. The family's older dog tries in vain to guide him. The story is told from the stray's point of view. He has so many misunderstandings of humans, "two legs", that get him in trouble. The author has written this "comedy of errors" with a real understanding of dog behavior.

When the society-conscious but well-meaning McToffes decide to adopt a younger canine companion for their elderly, easy-going Ernest and return home with 'the most unadoptable dog in the rescue centre', all of them – not least Ernest – are in for a few surprises... From the depths of the social embarrassments, some disastrous - and very expensive - mistakes, misunderstandings and at times, sheer desperation, arise the virtues of patience, tolerance and unconditional love and loyalty.
