From Ulysses Press : William Shakespeare Rewritten by You before purchasing it in order to gage whether or not it would be worth my time, and all praised William Shakespeare Rewritten by You:

Anything that plays in the world of Shakespeare can be entertaining (see Star Wars Shakespeare). Add in your own creativity, maybe bring a friend or two, and youll have a great time. There are a large variety of Shakespearean works featured in this book, though some from famous plays had not so famous scenes. That, and I wanted more of those famous plays. The pre-adlib clues are more hint related (e.g., something you long for) versus parts of speech oriented (i.e., verb, noun, et al.). Either way, the result ends in hilarity. Thanks to Ulysses Press for sending this to me for review. 0 of 0 people found the following review helpful. Lighten Up Shakespeare With An Adult Mad Lib Type Book! FUN! By Maria Gagliano The 411 by Maria: I loved Mad Libs as a kid and this reminds me

of that. Basically one page has numbered sentences for instance pick an animal any animal, and the corresponding page has the Shakespearian text where you insert the word for that numbered sentence. Confusing? Nah...just I can't explain it well...if this was my blog I would have a picture of it. (I wish had a feature where I could share a photo).Then you read it back and chuckle. It is interesting and can be as fun, smart, dirty as you want depending on who is writing.May not be for everyone but anyone who appreciates reading, Shakespeare or Mad Libs will enjoy. I think my English Teacher friends will actually love this bringing to the Teacher's lounge tomorrow.
