2 of 2 people found the following review helpful. one of my favesBy Jaylore Codyown 100's of books and this one i would say is in my top 10 fave0 of 0 people found the following review helpful. Great adult coloringBy Laura MorganI'm not all that fond of bugs, but this is a really nice adult coloring book. Pics on both sides of the page but paper holds up well to watercolor pencils. Nice variety of bugs and the plants/leaves they live ln.3 of 3 people found the following review helpful. Great for budding entomologistsBy Coloring Book AddictLots of bugs, butterflies, moths and spiders as well as the flora and fauna they prefer. This coloring book has excellent quality paper printing cover and is suitable for all kinds of materials. I used gel writer pens, Pitt pens and Marco raffine colored pencils on the image included in my review. The publisher included this book in my sample pack and I was thrilled.

They form the largest animal group on the planet. They can vary in size, from only a few millimeters up to 12 inches. Some are highly poisonous and others are stunningly beautiful. You can find them in all types of climates, including dry deserts and lush rainforests. Welcome to the fascinating world of insects! Wonderful Insects is a coloring book filled with detailed ink drawings and patterns inspired by a variety of insects and plants from all corners of the world. The book contains 64 pages of beautifully hand-drawn illustrations created by biologist and illustrator Emma Hultén. Coloring-in is a great way to become calm and relaxed while having fun with color, shapes and the imagination. Giving life to every page will put you in a contemplative, creative mood. The drawings are perfect for decorating with colored pencils as you let your mind wander. Regardless of whether you are a full-blown nature lover or scared of insects, Wonderful Insects is a must-have. It allows you to enter the marvelous world of insects at your own pace, while coloring-in. Let yourself be inspired by their beauty, intriguing shapes and patterns.

About the Author Emma Hultén is a 37-year-old Swedish illustrator and biologist with several years of experience as a scientific illustrator at the Swedish Museum of Natural History. She is now an independent artist working with a mixed portfolio of information design, illustrations, photography and biology. The diversity and variety of color, pattern, shape and structure in the natural landscape is a major source of inspiration to her. Find out more about Emma's work at www.emmahulten.com.
