NakafujiI've been a fan of Woodstock since I was a kid. .and recently started collecting different Woodstock items, so this was a really great addition. The book is a little on the slim side, but contains nothing but comic strips starring the little yellow bird and Snoopy, and sometimes the occasional character, like Charlie Brown or Lucy.0 of 0 people found the following review helpful. Love Woodstock? Get this book!By SyxxI love Woodstock. Growing up, he was always my favorite character in Peanuts. This book provides a great amount of stories - all featuring Woodstock! Great selection - I just wish it was longer!

NO ORDINARY BIRD . . .For a small guy, Woodstock makes a big impression. True, he gets a tad jumpy around Thanksgiving and tends to have a bit of a temper, but Woodstock can type and take shorthand, and he's a great friend and confidant to Snoopy—even though the little bird is often the butt of the beagle's practical jokes. Whether flying erratically around the baseball field or embarking on adventures with his best pal, Woodstock is loved by one and all.

So join this famous yellow bird and the rest of the Peanuts gang in a comic strip collection full of fun . . . and flight.
