Edward Scarzi : World's Greatest Riddles and Brain Teasers! before purchasing it in order to gauge whether or not it would be worth my time, and all praised World's Greatest Riddles and Brain Teasers!:

1 of 1 people found the following review helpful. IT HURTS TO READ THIS BOOK! By Bruce Wardlow The formatting in this book is horrible. The entire thing, except for the second riddle and a handful of other things is in bold font. It's just painful to read. Also, there are sections, however the section headings are in the same font size and

boldness as the rest of the next, so it's difficult to navigate to the solutions. And the riddles aren't very good. This is the same book as five others that you can get for 99 cents or free. Just don't read this book. 0 of 0 people found the following review helpful. Good exercise for going outside the box. By Sumguynobuddynoes. Item as described. Prompt delivery. Great way of expanding one's understanding of changing our perspectives to determine new outcomes. 1 of 2 people found the following review helpful. Not child friendly. By skeI had to cut out many pages because they were morbid, not funny. Other riddles didn't make a lot of sense.

Test your mind, wits and sense of humor with Dr. Edward Scarzi's World's Greatest Riddles and Brain Teasers! Find out what all the fuss is about! Are you up to the challenge? Appropriate for all ages. Hours of individual and group enjoyment perfect for the whole family!
