**Matt Roper : World's Weirdest Animals** before purchasing it in order to gauge whether or not it would be worth my time, and all praised World's Weirdest Animals:

0 of 0 people found the following review helpful. My son (4th grade) loves this book! By sjr The photos are great, there is a wide variety of animals. My son used it for ideas when he was required to write about an animal for a class. 0 of 0 people found the following review helpful. Faces Only a Mother Could Love! By Mike O'Connor Brit author Matt Roper provides a photographic guide to 38 of the world's wildest-looking animals in **WORLD'S WEIRDEST ANIMALS**. A 2009 Summersdale Publishers release, this pocket-sized guide makes for a way-cool lunchtime diversion for adults or lots of fun for kids. Among the animal wonders included in the 96-page book are the dumbo octopus, two-headed shingleback skink lizard, bumblebee bat, saggy-skinned frog, thorny (not horny!) devil, blobfish, cookie-cutter shark, leafy sea dragon, vampire squid, star-nosed mole and everyone's favorite, the duck-billed platypus. Each creature gets a one-page write-up with a color photograph on the facing page. Interspersed in the book are five 'Weird Animal Facts' blurbs. **WORLD'S WEIRDEST ANIMALS** probably isn't an essential purchase but it's fun and entertaining and informative...for kids of all ages. Recommended.,

Whales that look like unicorns, lizards that squirt jets of blood from their eyes, naked rats that can sprint backwards,

and more
