Paul Knorr : X-rated Shots (Running Press Miniature Editions) before purchasing it in order to gage whether or not it would be worth my time, and all praised X-rated Shots (Running Press Miniature Editions):

Or slipped into a pocket for the fella's. Has a nice arrange of sexy shots that taste great and a must try if you never had them before! I keep mine on my at home bar for when people are over and can't decide what sort of shot they want. It's always a winner at all my parties! 7 of 7 people found the following review helpful. Naughty (?) Mixology By Vallen (3.5*) This is a cute little hardcover novelty book (about 2"x 3"x 1/2"). It claims to be X-rated, but is only mildly naughty. It has recipes for real drinks, one per page, with an illustration on the opposing page. Okay as a stocking stuffer or incidental gift, considering its size. It is a real drink recipe book, and will give you some ideas for interesting new concoctions. A good gift idea might be to include it with a set of glasses or with a bottle of spirits mentioned therein. 1 of 1 people found the following review helpful. Ridiculously small. Doll sized... By Safrole Bought this as a birthday gift for a

friend...beware...the book is tiny...miniscule. Fold a dollar bill in half and you've got something slightly larger than this book. It makes it not worth the price.

It's more than just the alcohol that gives these shot recipes that extra kick! With names that range from the merely suggestive to the downright risqu, these mini pages offer ways to take a tiny taste of good-natured fun. More than 50 recipes are accompanied by images of collectible shot glasses and other illustrations.
