This coloring book has a variety of images to colour, something to suit everyone no matter what skill level. This book has 25 beautiful illustrations to color during your leisure time. The pictures are on single pages and has quotes on the back of the page. The paper is of good quality, but isn't heavy duty so some bleed through could occur. I would buy this coloring book again!0 of 0 people found the following review helpful. Very cute, but simple, artwork for quick coloring sessions.By Jessica BlyWhile the paper quality could be better, the pictures are one sided (although not perforated) and most importantly (and worthy of the 5 stars) is the art work. This is my third YamPuff coloring book and the artwork is absolutely adorable. This is a really good book to share with a younger child as well because the drawings, while unique, aren't super intricate and can be done pretty quickly. Just be sure to use a blotter

page if you use markers or any kind of wet mediums so that it doesn't bleed through. 1 of 1 people found the following review helpful. I love YamPuff's workBy CustomerI love YamPuff's work!!I bought this and the Carousel Dreams book and they're both super fun to color. I wish the paper were a little thicker but overall I absolutely love them!!! I want her to come out with like 10 more coloring books with all her Deviant Art work :D
