By SanD Q Sometimes it takes reading masterfully crafted little nuggets of negativity to boost your confidence and make your day. That sounds backwards, but it's true. I mean, I found this pretty hilarious. I wouldn't recommend it to someone who is genuinely wildly emotionally unstable. But if you're just feeling a little down, someone telling you sarcastically how crappy and useless you, your family, your friends, and even your pets are is just the thing to make you stick your tongue in your cheek and chuckle while realizing, "Nope, I'm not really so bad and neither is my life." 0 of 0 people found the following review helpful. Five Stars By Mabrasm Best book ever. Really puts life in perspective. 0 of 0 people found the following review helpful. Hilarious! By Lisa C My sister first introduced me to this book by reading excerpts from it over the phone. I've been going through a very tough time in my life and she made me laugh in the midst of it all. Of course I had to get the book, and what a gem it turned out to be! One must have a sense of humor to enjoy this style of writing, and also must not take it literally! The humorous quips are exactly what most of us have probably thought at one time or another, yet never would admit it out loud. If you have a (somewhat dry) sense of humor, love to laugh and don't take everything so seriously, this is a must read!

Takes a humorous look at inspirational self-help books by providing hundreds of depressing nuggets of wisdom.
