Colin Cowherd : You Herd Me!: I'll Say It If Nobody Else Will before purchasing it in order to gauge whether or not it would be worth my time, and all praised You Herd Me!: I'll Say It If Nobody Else Will:

1 of 1 people found the following review helpful. Opening RantBy TroyAs usual Colin is great with his words. A lot of one liners in here worth quoting. Even though this book is 4 years old and a lot of what he talked about pertained to

back then his points are all still very relevant no matter what year you pick up this book. Fun easy read. If your a fan of Colin. Give it a read. You Herd it here first.0 of 0 people found the following review helpful. If you are diehard Uncle Colin fan you will love this book.By Jesse WojdyloI have been listening to Colin Cowherd since late 2008. Although there are many haters out there, he is truly one of the most brilliant minds on radio. He is completely honest and usually on point. Every once in awhile he will make a wrong prediction, who doesn't, but he will own up to it. When I first started my Internet "business" I created a website called the Church of Cowherd in which I documented his "Blazin' 5" college football picks and the other predictions he made. Unfortunately, life called, Wojdylo Social Media was formed and there was no way I was going to be able to keep up with listening to Uncle Colin for hours at a time. That said, having a large amount of experience consuming Colin, I thought this book was great. If you have listened to Colin over the years you will likely know most of the "stories" in this book. In essence, Colin picks out about 12 or 13 "theories" that he thinks are truths and he expands on them. If you like his radio show on ESPN you will absolutely love this book. I don't read books very quickly but I finished this one in a single weekend. If you are a fan of the Herd on ESPN get this one.0 of 0 people found the following review helpful. Nice short chapters... perfect for bathroom reading!By J. CopelandIf you are regular listener you will recognize a lot of what is in this book. I am only about halfway through it and it is nice to be able to re-live many of his on-air rants and observations in book form with more detail. I appreciate Cowherd's insight into sports and his philosophies on life in general. I listen to his morning show on ESPN frequently and find myself adamantly agreeing to 90% of what he has to say, only disagreeing on about 5% and having no opinion on the other 5%. I like that he sticks his neck out and says what he thinks, but then is not above reevaluating those thoughts and opinions based on new information. I've never understood the whole "flip-flopper" tag placed on people who are willing to change their stance on something as they learn more and more about an issue. He gets a little "cutesy" at time on the radio show, and he has to be a complete egomaniac, but I think that is what makes the radio show (and the book) winners in my eyes.If you like Cowherd you will probably like the book, if you don't it will just validate why you don't like him.

There are really two games, the one you see and the one you don't. The way I see it, the best way to use access to both worlds is to illuminate and reveal, not idolize and adore. It's better to be wrong than to be played for a fool. – Colin Cowherd In this age of billion dollar athletic marketing campaigns, “feel good” philosophy with no connection to reality, and a Sports Media echo chamber that’s all too eager swallow whatever idiotic notion happens to be in vogue at the moment, it’s tough to find people who aren’t afraid to say what they’re really thinking. But that’s where Colin Cowherd comes in. As his millions of fans on ESPN Radio and ESPNU already know, Colin is the rare sports analyst who’s brave (or crazy) enough to speak his mind—even if it pisses some people off. Of course, it helps that a lot of what Colin has to say is simply hilarious. Lots of writers can tell you about Boston’s storied sports history. But how many can tell you why the city of Boston is America’s five year old? Lots of writers will brag about the stuff they got right, but how many will happily list all the calls they got completely and utterly wrong? Whether he’s pointing out the stupidity of conspiracy theories, explaining why media bias isn’t nearly as big a deal as many assume, or calling out those who prize short term wins over sustainability, Colin is smart, thought-provoking, and laugh-out-loud funny. Some of the questions he’s not afraid to ask in You Herd Me! include: Is Tiger Woods really a sex addict—or does he just have good PR?Is “work-life balance” really the ideal we should all strive for—or is that just a way for people feel better about mediocrity?Is talent really all it’s cracked up to be—or can too much talent actually be counterproductive?Is the X games really a sport—or would we all be better off if we admitted it’s something else entirely?Is Hell really a supernatural place of fire and brimstone—or is it actually just another word for living in Tampa? Unapologetically entertaining and packed with behind-the-scenes insights you won’t get anywhere else, You Herd Me! is unlike any other sports book ever written.

About the AuthorCOLIN COWHERD is currently the host of The Herd with Colin Cowherd on ESPN Radio and ESPNU. He is also a former cohost of the show SportsNation on ESPN2.
