Still a fun series!By Don KidwellFavorite line from the book was 'You know you are a teacher when "Back to School" signs in the shops make you want to cry' Artwork was good tho my favorite thus far had to be the "You know you are a Runner..." book. Funny read!0 of 0 people found the following review helpful. A great series :)By The Wizard of OzI love these books, of which my collection is growing. The writer and the artist combine beautifully and why this team has not achieved much greater heights (ie national newspaper

syndication) is beyond me. They are fresh, funny, and the end result is as professional as anything else on the market. May this series continue to grow as surely as my collection of it will. Recommended. 0 of 1 people found the following review helpful. Insulting caricatures detract from some clever insights. By Customer YOU KNOW YOU ARE A TEACHER is the seventh of a series of books using one-liners to differentiate people in different professions from other people. It has forty examples, such as "You know you are a teacher when you start saving other people's trash because you can use that toilet paper tube or plastic butter tub for something in the classroom" and "You know you are a teacher when you want to slap the next person who says 'Must be nice to work 9 to 3 and have summers off...'" I can recognize and relate to several of the situations in the cartoons. Many were amusing. My main criticism is some of the caricatures are grotesque and insulting.
