hilarious, and perfect for either new or established empty nesters. Bought this for my son's high school principal who is lamenting the advent of his youngest child leaving for college this summer. Hope it cheered these parents up; I know I couldn't stop laughing reading this book --- it's all so real, so true, so funny.0 of 0 people found the following review helpful. Five StarsBy Cyrilla B.Great product0 of 0 people found the following review helpful. Four StarsBy Cynthia KempSomewhat dated but good gift for first-time empty nesters!

Humorously depicts the very real phenomenon of 'life after kids'. With illustrations throughout and incisive and amusing one-liners, this book makes you immediately recognize yourself or someone you know who is or was an Empty Nester.
