Scott Adams : Your New Job Title Is "Accomplice": A Dilbert Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Your New Job Title Is "Accomplice": A Dilbert Book:

6 of 6 people found the following review helpful. At his usual best By Trelligan You would think after this many books and cartoons about the business world, the pickings would get a little thin. Scott Adams still finds new ways for businesspeople to embarrass themselves and entertain us. He rings the changes on the main characters' peculiarities, and manages to show them from yet another viewpoint again and again. When he stops coming up with new stuff, I'll stop buying his books. I'm budgeted out for at least two more decades. Keep 'em coming! 1 of 1 people found the following review helpful. I'm not sure how Adams can be so consistently hilarious and spot-on By Ariel This collection contains new stuff and is not a "themed rehash" of previous materials. I swear, Scott Adams is hiding somewhere in my office and spying on me to get materials for his stuff - and probably everyone who ever worked in an office (especially with a marketing department) feels the same way. When I read his books, I am stunned at how he can consistently pull off "winners" almost every time, every strip. Comments or concepts that have not yet been lampooned, insanely clever dialogue, lethal puns, and chokingly funny punchlines. I actually required one of his books once for a course I taught. I wish he came out with one of these a month. I always have such a sinking sense of disappointment when I come to the end of his books and have to wait several months for the next one. 23 of 25 people

found the following review helpful. Difficult to read on a KindleBy Krishnamoorthy BalaramanMy review is not about the content. The content is classic Scott Adams and is bound to entertain anyone working in an office environment. I was, however, dissatisfied with the kindle edition of this book. Each page displays three strips. This is too much content for the kindle (wifi model). I expected the kindle edition of the book to have been authored with "panels" that would display one strip on each page.

Dubbed "the cartoon hero of the workplace" by the San Francisco Examiner, Dilbert is the cubicle-bound star of the most photocopied, pinned-up, downloaded, faxed, and e-mailed comic strip in the world.As fresh a look at the inanity of office life as it brought to the comics pages when it first appeared in 1989, this 40th AMP Dilbert collection comically confirms to the working public that we all really know what's going on. Our devices might be more sophisticated, our software and apps might be more plentiful, but when it gets down to interactions between the worker bees and the clueless in-controls, discontent and sarcasm rule, as only Dilbert can proclaim.

... Dilbert and his cubicle cohorts continue churning out the laughs, keeping office humor relevant and relatable, demonstrating the funny side of the 9-to-5 life. Their latest shenanigans are sure to brighten a dreary workday. (Baton Rouge Advocate)About the AuthorWhat started as a doodle has turned Scott Adams into a superstar of the cartoon world. Dilbert debuted on the comics page in 1989, while Adams was in the tech department at Pacific Bell. Adams continued to work at Pacific Bell until he was voluntarily downsized in 1995. He has lived in the San Francisco Bay Area since 1979.
