**Zack Parsons : Your Next-Door Neighbor is a Dragon** before purchasing it in order to gage whether or not it would be worth my time, and all praised Your Next-Door Neighbor is a Dragon:

0 of 0 people found the following review helpful. Still funny a decade onBy AnthymZack Parsons isnone of the best humor authors out there. This is because his points are spot on and his stories are surreal and insane. I know the people in this book. They hang out at my local comic shop. Some of them are my friends. Some of them may be your friends too. We are both lying to ourselves when we call other people friends because if you know these people you are part of

a culture that never leaves the keyboard. We cannot afford friends. Friends interfere with raid night. This book is accurate even when it is completely untruthful. It is that kind of book. Do not read it like fiction and do not read it like nonfiction. The fake characters are alive in every furry chatroom and healing crystal / custom knife shop. If this terrifies you then you are on the path to realizing that the internet has doomed our species. 0 of 0 people found the following review helpful. Pure, distilled internet

By Thomas Howard Zack Parsons is one of the best writers I've had the pleasure to read. This journey down the rabbit-hole of the worst corners of the internet is both amazing and gut-wrenching. The whole book is basically the author, in first person, hanging out with some of the very worst examples of weirdos to grace the internet and had me applauding out loud and screaming obscenities at everybody he met. He handles it all so well you'd never guess that he's as jaded as every other 30something person who's been using the internet for half their lives. Mr. Parsons is definitely an author to watch in the future, as evidenced by his latest book "Liminal States" which I highly recommend if you're into being taken for a strange ride. That seems to be his thing, actually... you buy the book and it's like buying a ticket for the weirdest, scariest, most bizarre and messed up ride through a carnival ghost house except you want to throw punches at the ghosts. He handles the people in this book in a very sensitive way, too. He never comes right out and says "hey this is a horrible person." He just hangs out with them and lets their voices be heard, allowing the reader to draw their own conclusions. I'm rambling now but I really enjoyed the book and I'll shut up and hope that you buy it. 0 of 0 people found the following review helpful. Funny

By Pot Pie A hilarious book. Only two gripes is that there's one very strange and out of place chapter midway through; And the ending is a tad sudden and not that great. Besides that, the rest of the book was fantastic.

Finally, a book about the Internet that takes place outside the Internet! Your Next-Door Neighbor is a Dragon leaves the bleeps and bloops behind for a series of surreal interviews and adventures with the people behind the computer screen. Something Awful's Zack Parsons risks life and sanity by meeting with people who believe they are real dragons and elves, attending a furry convention in costume, paying a visit to a white power group in Texas, talking shop with people who want to be swallowed whole, and witnessing the launching of the Ron Paul Blimp. More than a year in the making, this epic adventure is full to bursting with the jokes about wieners and poopy that made Something Awful a true Internet sensation. Have you added the book to your cart yet or do you just hate yourself that much?
