Ivy Sanchez, Eva Xanthopoulos : Zendangered Animals: A Zendoodle Coloring Book before purchasing it in order to gage whether or not it would be worth my time, and all praised Zendangered Animals: A Zendoodle Coloring Book:

0 of 0 people found the following review helpful. A Must Have Book!!By Troy GunterAbsolutely the best coloring book!! I ordered the book to challenge my creativity and the "zen" approach for art was interesting. Each page is brilliantly displayed with endangered animals and a facts page about their current endangered status. Additionally, each animal is drawn with unique patterns that once completed you have an art piece. I glowingly recommend this book to anybody that loves animals, art, and a different approach to coloring. I can't wait for part 2!!!0 of 0 people found the following review helpful. Epic coloring bookBy CustomerThis book is absolutely stunning! The artist did amazing work and detail in the pictures. The zen makes it that much more appealing and fun. And helps keep you thinking about endangered species0 of 0 people found the following review helpful. Heavy black lines and too many

areas already heavily shadedBy Florida KayakerI would not call this a coloring book. While the book does give facts about each endangered animal, the coloring pages have so much already shaded in or so many dark and heavy lines that there is very little left to color. I will post some photos of the designs to color and you can judge for yourself. There is also no download link but of course you can always do a print screen if you don't mind all of the black areas.

Infusing one's coloring experience with the meditative elements of Zen and the importance of conservation, "Zendangered Animals" showcases twenty five different endangered wild animals tactfully crafted by illustrator Ivy Sanchez. Each and every picture serves as a keepsake, offering an outlet for one's inner child to run rampant – all while increasing one's awareness about the at-risk species of our beautiful planet.
