Nick Snels : Zombie Coloring Book 1 (Volume 1) before purchasing it in order to gage whether or not it would be worth my time, and all praised Zombie Coloring Book 1 (Volume 1):

But that also makes for stress free coloring. Some are comical. They are printed on one side on decent paper. I'm attaching a pic of my favorite image from the book. If you love coloring and love zombies, you'll love this book. If the lack of a detailed background is a deal breaker, just draw in your own background. That could be fun, too. 6 of 6 people found the following review helpful. Overall good coloring book. By JULIAN VELAZQUEZ Many kiddie photos. There was one photo I saw before purchasing that lookers very dramatic but it's the only one like that. I personally like the plain background behind the zombies because I get bored easily. 2 of 2 people found the following review helpful. If You're Looking for a Great Zombie Coloring Book... This is It! By Raquel Y. Eldridge-Gradnigo THIS is what I was looking for when I was trying to find a zombie coloring book.

Too bad I found the other one I bought (and was really disappointed with) before I saw this one. But thanks to the images in previous reviews, I knew this one was the real deal. Full-size images that look like they'll be really fun to color!

Simply the best coloring book for every boy or girl that loves Zombies! This gruesome coloring book contains 40 cartoon style disembodied zombies. Parental warning - This book contains blood, weapons and violence. Art is like a rainbow ... never-ending and brightly colored. Feed your creative mind and have fun! Each picture is printed on its own 8.5 x 11 inch page so no need to worry about smudging.
