Jack Strange : Zomcats! before purchasing it in order to gage whether or not it would be worth my time, and all praised Zomcats!:

1 of 1 people found the following review helpful. A fun little zombie tale perfect for the Halloween and Political season...By Frederick OrtizI had the pleasure of getting to read a beta-copy of the story a while back, and I was eager to actually officially buy the book on kindle. Everything I say here was written as part of my review of the beta-copy of the story.This is a sequel to Jack Stranger's earlier book, Celebrity Chef Zombie Apocalypse, ZomCats is the continuing adventures of Herderson, a cat that was ran over, killed, and resurrected as the world first Zombie Cat,

where he was the pet / companion for Floyd Rampant in the climax of *Celebrity Chef Zombie Apocalypse*, Henderson fled the chaotic scene and has ended up on the door step of Bob Slawit and that my friends, is where the fun begins as a new *Zombie* outbreak occurs but thats not all Rampant is still around as well, plotting...Much like *CCZA*, *ZomCats*, is a brisk read, thanks to short chapters that makes you want to continue reading, and there is a lot of great visual writing. What I mean by that, is that the detailing of the action will easily make you visualize what it taking place. Not to mention some great use of current events to feed into the story, such as a certain guy with odd hair wanting to build a wall and Ill leave it at that, again dont want to give away too much, but there is certainly a lot of enjoyment to have reading *ZomCats*. And also like *CCZA*, *ZomCats* has a bit of an open ending, leaving room for further further exploration of the world of *Zombie Chefs* and *Cats*So whats the verdict, well I actually enjoyed *ZomCats* more than *CCZA*, because it really open things up, taking things on a more shall we say global scale, and I do believe that when its released in a couple of months, readers are going to enjoy it.0 of 0 people found the following review helpful. A riotous readBy GraceHilarious cast of characters and chuckle-worthy one liners. The names of the politicians were hilarious and the posturing and power plays were fantastic. Clever social observations were woven seamlessly through the increasingly bizarre chain of events. There were some great scenes contrasting the UK/US way of life. I wanted a bit more focus on Henderson because he was one of my fave characters from *Celebrity Chef Zombie Apocalypse* but I enjoyed the way it played out, nonetheless. It was great when the story threads began to come together towards the end resulting in some "Aha" moments. A riotous read.1 of 1 people found the following review helpful. Wonderful!By Kindle CustomerI really enjoyed this book. The zombie cats are very scary as they are stronger and faster than regular cats and they are not picky eaters. The politicians were hilarious when they weren't being frighteningly realistic (and sometimes when they were). If you like a few laughs mixed in with tingles of fear, this is the book for you. Hoping for a sequel.

Cats and their humans have always lived peacefully together ancient Egyptians worshiped them, musicals have been written about them, the internet goes gaga for them - *Zomcats!* Dumps all that into the litter tray of life. This ain't no cute, cuddly kitten zombie story. *ZOMCATS!* by Jack Strange does for cuddly felines what James Herberts horror classic *The Rats* did for rodents. It's violent, horror laced mayhem with savage satire and devilish dark humour. The action starts on the first page and doesnt stop till the shocking cliff hanger climax on the last page. *Zomcats!* When their 9 lives are up they come back from the dead! "Strange writes *Zomcats!* as though he's on a mixture of speed and catnip!" Kensington Gore

"This book is great...intelligent plots...I was very entertained by this book..." - The Horror Nation, 25 August 2016"...great 'visual' writing...the detailing of the action...will make youvisualise what is taking place...readers are going to enjoy it..." - Fred Casden's Basement, 31 July 2016About the AuthorThe reclusive author Jack Strange is an unusual fellow. His exact age is unknown. Those who've dared to ask him have never survived long enough to divulge the answer. His writing is dark and comedic. He has a biting wit, an acid tongue, and some say hooved feet. With his leaning towards the undead, he's a natural for the world of horror and gore. Jack signed for Kensington Gore publishing in early 2016 in blood, no-one is sure whose. His first dark, comedic horror novel, *Celebrity Chef Zombie apocalypse* is to be published May 28th 2016. Its a tale of true love, zombies, sex, cooking, cannibalism, depraved sex, and chasseur sauce. Jack's done too many jobs to mention. He could tell you, but then hed have to kill you. Not because he worked for the secret services as a hit man or an executioner. Its just that he gets bored very easily. He has a wife, poor woman, and two lovely daughters who cant be named for legal reasons. Oh, and besides all that, Jack Strange lives in Huddersfield West Yorkshire. Need we say more?
